Operations Coordinator's Message

Pjila'si! Welcome producers, buyers and industry partners—we are thrilled to be back together, in community, for the 2024 Craft East Buyers' Expo.

I continue to be inspired by our craftspeople and their stories which fill this show year after year with products. Craft is a reflection of people and passed-down tradition; without all of you none of this would be possible. I look forward to witnessing the showcase of diverse talent and craftsmanship, as well as continuing to support diversification and equity building within the Craft community here in Atlantic Canada and abroad.

May you each connect with exactly who and what you need for this upcoming year—I wish you every success!

EQUITY STATEMENT

We acknowledge the diverse communities in our region that make up our population, including Indigenous Peoples, the many descendants of African Nova Scotians, the Black Loyalists and other racialized individuals including immigrants and refugees; individuals from the 2SLGBTQQIA+ community; and persons with disabilities. We recognize that the lived experiences of these groups can often vary dramatically, and that considering the intersectionality of those lived experiences is also an essential factor when discussing issues pertaining to them.

Time Travel in a Cup - Drink a Bit of History. All Natural Historical Tea Blends.

Sense and SensibiliTea started from humble and dirty roots. It began in a make shift 18th century tea parlor. Having hosted many fully costumed period teas I decided to take the next step, and begin research to make sure the teas I was serving were accurate to the various periods we were playing in. It began with two simple blends. Over time it went from small reenacting hobby to something much more and ever expanding.
