Host Minister's Message

On behalf of the Province of Prince Edward Island, welcome to all participants in the Craft East Buyers' Expo.

Culture grows and thrives through collaboration. This expo is the perfect opportunity for the crafts industry to come together from across Atlantic Canada to do exactly that.

PEI is proud to be the host province this year. We would like to express our appreciation for the organizers and exhibitors who are committed to promoting and developing the crafts industry in Atlantic Canada. Your devotion to the crafts industry is making a lasting impact on cultural development and the creative economy across all three provinces.

Sincerely,

A handwritten signature in black ink that reads "Matthew Mackay".

CULTURE PRINCE EDWARD ISLAND**

Director's Message

Craft Alliance ~ Alliance métiers d'arts is excited to present our annual wholesale trade show to retail buyers from across Atlantic Canada and beyond.

Throughout 2019-20 the Alliance continued to expand our wholesale and export market opportunities for Atlantic craft producers with our Craft LAB incubator project at the newly branded Toronto Gift + Home Market, the NY Now shows in New York and the newest project, the Atlanta Merchandise Mart in partnership with the Museums Shops Association.

Over the past 5 years we have assisted over 50 local producers to enter new exporter markets and attend trade shows outside of Atlantic Canada. Together with our government partners and industry representatives we hope to further the goals of assisting in the development of the craft sector in our region.

Craft Alliance is also working on new projects in the United Kingdom and Germany in 2020 and looking to future activity in the European Union. We continue to look to new markets in the design sector like the London Design Fair and Collect; stay tuned for more details on those projects soon.

Thank you for joining us in Celebrating Craft in Atlantic Canada. It gives me great pleasure to welcome retail buyers, craft exhibitors and honoured guests to our event, a showcase that celebrates excellence in Atlantic craft.

A handwritten signature in black ink that reads "Bern M. Burton".

EXECUTIVE DIRECTOR

Operations Coordinator's Message

We are very excited to present the 3rd annual Craft East Buyers' Expo! We are happy to have another sold-out and expanded show for 2020, with a great mix of new and returning craft producers. I'm ecstatic to share that we've added a new floor of suite exhibitors at the Homewood Suites this year! The new direction, format and venue presents the best Atlantic Canada has to offer in handmade craft, giftware and apparel products from the region. It is truly a privilege to witness the growth of this industry first-hand through this event.

Craft East Buyers' Expo is a great opportunity for networking and learning, and we're so happy to present another great schedule of seminars this year. We've partnered again with members of the Museum Stores Association (USA) to present this year's workshops and to join our Incoming Buyers' Program, which was highly successful last year with their participation. We hope this year's seminar program will help to spark more conversations on how retailers and craft producers in our region can work together on product development.

I want to welcome all our buyers from across Canada and the USA to the show; we hope you will find something unique this weekend to bring back and offer to your customers at home! Thank you for joining us, wishing everyone a successful weekend!

WATERLINE COLLECTION Before they became jewellery, each piece in the Waterline Collection had another life as household copper pipe and was subject to constant erosion by the water pumped through it every day. This erosion has given each piece its own unique character, and has been retained and in some cases, accentuated by the upcycling process — creating the Watermark. Each Waterline piece is therefore not only unique, but also made from 98-100% recycled materials. They go through a transformative process of environmentally-sound cleaning, wood stove annealing, anvil hammering, and curator-style polishing. This collection includes polished copper, Watermark, and kiln-fired enamel pieces.
